

Model name: 2a_vgg16_4-classes_dense512_masked

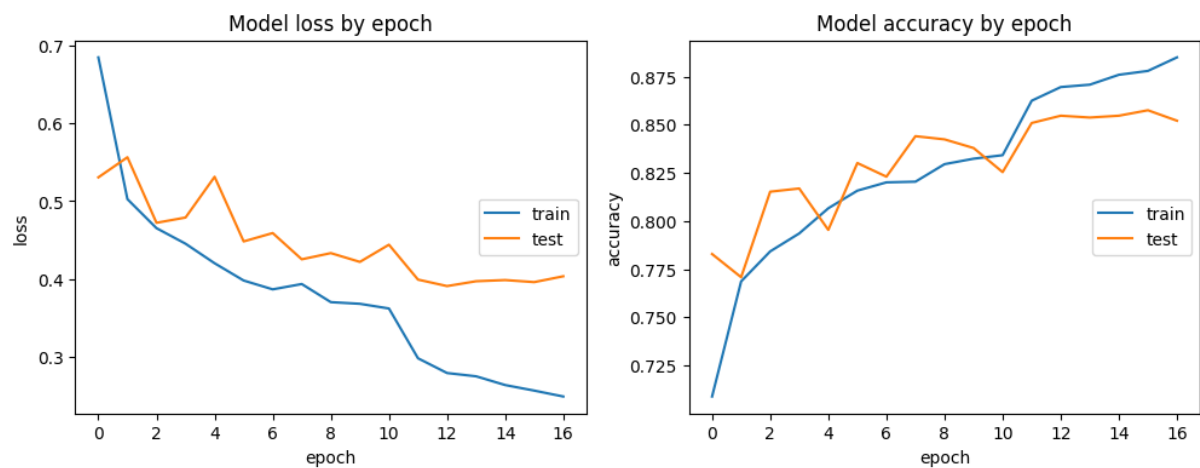

Description and underlying idea:

We tried only classification of the Covid and Normal class so far, now we want to see, how the model performs on all classes.

Conclusion:

Performance is not so bad for this early models, but still far away from the performance we aim for (at least > 0.95 f1 score).

Training History:

Performance Report / Recall normalized confusion matrix

	pre	rec	f1
covid	0.712673	0.796634	0.752318
